Dr. Robert W. Schiessler
Associate Professor of Chemistry
College of Chemistry and Physics
Pennsylvania State University
State College, Pennsylvania

Dear Dr. Schiessler:

Thank you for the directions for syntheses of PSC 510 and 174, which I have received in Dr. Horton's absence. I expect to carry out these syntheses in the near future.

The directions for PSC 174, which I will use to prepare PSC 559, seem clear and detailed. However, the directions for PSC 510 seem rather sketchy, and I would greatly appreciate more complete details, particularly concerning the dehydration step.

Sincerely,

Ruth Pierle Trosset
