SUBJECT: UNC Proposed Epidemiological Study - PVC

Dear Bill,

Walter Harris and I have reviewed your letter of February 19 on the above subject. We are in full agreement that there is no point in duplicating the work that is now under way by Organization Resources Counselors in this same area. Accordingly, we would not be interested in further promotion of such project. We believe sufficient information can be obtained from our own study now under way. We would suggest that both the UNC and SPI be made aware of the ORC study now in progress.

Very truly yours,

G. L. Dowling
Corporate Manager
Safety & Plant Protection
