

1 The Federal Register in general is a
2 compilation of the words that are printed by the
3 federal bureaucracy on a given day.

4 And in this particular occurrence there was
5 a document that was put out that was labeled part two,
6 Department of Labor, Occupational Safety and Health
7 Administration wherein they sought to amend the
8 occupational safety and health rules for parts 1910
9 and 1926.

10 Q What this big thick document basically is is
11 a summary of OSHA's findings and an explanation of its
12 rules that they then passed and put in effect
13 regarding asbestos?

14 A Yes, as an augmentation to their 1976
15 rules.

16 Q Now, if I understood your testimony before
17 with regard to the time-weighted average number you
18 have here for one brake job being done by -- I am
19 sorry, one brake -- is that one brake job; is that
20 what that is?

21 A No, sir, that was only -- we were only
