Hello Liane,

Attaching the short analysis for the EO effected by Section 3. We see the activities that were initiated as a result of the E.O.s and Memorandums. We do not see these activities as impeding energy development. The more problematic guidance was (b)(5);Deliberative Process Privilege (b)(5);Deliberative Process Privilege The FS did not issue new guidance to increase or change analysis so would not anticipate this to be a hurdle.
