ASSOCIATED INSULATION CONTRACTORS
of the Western States

December 20, 1966

Mr. J. M. Barnhardt, Executive Secretary
National Insulations Manufacturers Association
441 Lexington Avenue
New York, New York 10017

Dear Jack:

This is to express the appreciation of the Board of Directors and the members of A.I.C. for your participation in our program on "Lung Diseases--Their Causes and Prevention", which was presented on Tuesday morning, November 15, at Palm Springs. The program was certainly well received, and covered a large number of the problems involved in this area.

Before too many days, I'll try to sit down and write you my comments regarding the program as a whole. Both Mr. Sheklier and Mr. Edwards requested that I do so. I did get a number of comments on how the program might well be improved. Generally, it was considered an exceedingly valuable session.

Again, thanks for your participation in our annual meeting. We will look forward to further cooperation between your Association and the active contractors in the United States.

Very truly yours,

Kenneth K. McCaffree
