Dear Sir:

A recent issue of Food & Drug Packaging (volume 30, number 11, June 6, 1974) reports that you have developed a method for detection of vinyl chloride monomer in foods or food packages at parts-per-billion levels. As a manufacturer of materials which are sold to the Food Packaging Industry, we would appreciate receiving a copy or outline of your method.

Thank you for your consideration.

Very truly yours,

TENNECO CHEMICALS, INC.
