

amended programs that were raised. In an effort to keep all the options discussed in one central document, I have included all of them in the attached schedule along with descriptions for you and your agency to consider when making a final decision on the program. We understand that there will be cuts and/or further amendments, and we welcome EPA's thoughts on a final schedule ASAP so that we can reach out to our Australian colleagues and firm up/calendar the events.

FYI, the following programmatic elements have been added/amended to the notional schedule attached:

- **██████████ Sydney**

- o **Gladstone LNG Plant Visit** – SYD to provide further details and EPA looking into ethics.

- **██████████ Canberra**

- o **Bilateral Meeting with Minister for Resources Canavan** – EPA-requested and Post will submit request.

- o **Bilateral Meeting with Minister for Foreign Affairs Bishop** – EPA-requested and sending details to Post.

- **██████████ Melbourne**

- o **Green Innovation Site Visit** – The Green Infrastructure Research Group (GIRG), University of Melbourne or The Pixel Building

Please let me know if you have any questions. Thank you, and we look forward to next week's conference call.

Best,

James J. Shea
