24 January 1972

Mr. Douglas Merrill
Paco Textures Corporation
909 Old County Road
San Carlos, California

Dear Mr. Merrill:

As per my phone call this morning, I am enclosing copies of rules and regulations from the Federal Register as instigated by the Environmental Protective Agency and Bureau of Labor Standards, Chapter XIII, Part 1518 and Chapter XVII, Part 1910.

The EPA is conducting a public hearing on the proposed standards for asbestos on February 15 at 10:00 AM at U.S. Court House, Room 1501, 312 North Spring Street, Los Angeles, California. If your company plans to make a statement at this meeting a notice must be filed 15 days before the hearing. If practical, the statement should be submitted 10 days before the hearing. Otherwise copies of the statement may be submitted at the opening of the hearing.

Please note item 61.22 (e)(1) which prohibits the spraying of any product which contains asbestos on any portion of a building or structure. I'm confident the EPA has in mind sprayed mineral wool/asbestos structual steel fireproofing, not products such as manufactured by Paco Textures, so the rule should be deleted or rewritten.

Plans now call for statements by the below at Los Angeles:

1- GAF Corporation
2- Dr. Hans Wiehl
3- Dr. George Wright
4- Asbestos Information Association/North America
5- Raybestos Manhattan
6- Dr. Walter Smithers

Let us hope that some sensible rules will result from this hearing.

Sincerely yours,

PHS 23
