

BRAKE LINING CATALOG

BRAKE LINING CATALOG

The American Brakeblok Lining Catalog contains brake lining data for passenger cars, trucks, trailers, buses, and axles from 1950 to the latest confirmed application.

Some passenger cars and trucks have the original lining bonded to the brake shoe. These models are indicated and we refer you to the current catalog on American Brakeblok Relined Brake Shoes.

This catalog has five (5) basic sections to help you determine as easily as possible the proper lining set for each application.

The following pages will explain each section in order as follows.

- I. ALPHABETICAL LIST
 - A. Domestic Cars
 - B. Foreign Cars
 - C. Trucks, Trailers, Buses and Axles
- II. DIMENSIONAL INFORMATION
 - A. Truck Lining Strip Sets — By Width
 - B. Thick Blocks — By Width and Drill Pattern
- III. CROSS REFERENCE
 - Thick Block Number By Width and Drum Diameter to Drill Pattern
- IV. EMERGENCY BRAKE LINING: By Make
- V. NUMERICAL LIST: Dimensional and Application

SECTION I

ALPHABETICAL LIST

A. Domestic Cars

65-71	Comet & Montego (exc. S/W, Conv. & 390 Eng.)	BH	2151ATD	2012STD
	Optional	BH	2089TTD	2091D
66-71	Comet & Montego Station Wagon & Conv.	BH	2051ATD	2091D
	Optional	BH	2089TTD	2089TTD
66-71	Comet & Montego w/390 Engine	BH	2089TTD	2089TTD
67	Optional disc front on all			

B. Foreign Cars

AUSTIN-HEALEY

65-68	(Oct. on) Healy Sprite IV	D	S-745	8043D
64-69	Mark III	D	S-719	857D
62-66	Sprite 1600	D	S-745	8043D
58-62	Healy Sprite		834D	834D
59	Sprite	D	S-708	831D
59-64	BN 7, 3000	D	S-707	857D
62-63	BN 7	D	S-707	N/A
61	BN 7		8043D	

The Alphabetical List is divided into three sections — the first being domestic cars, the second section is Foreign cars.

These two sections are similar but have been listed separately for easier identification. Both are listed alphabetically by make and model. Each section is divided into five columns. The first column gives the vehicle year. Column two gives the model names and other information pertaining to each such as 6 or 8 cylinder engines, station wagons, etc. Column three gives brake type whether they are Bendix Servo, Non-Servo, etc. Columns four and five give you the proper lining sets to be used for both the front and rear axles.
