CORRESPONDENCE

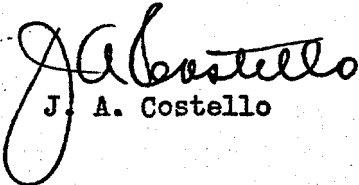

Dr. Willard Machle
Cincinnati

Dear Bill:

Attached is a copy of a letter received from Mr. W. J. Maxwell in further reference to the case of [REDACTED] about which I wrote you on July 30th.

I passed along the information which you offered in your letter of August 20th on the subject and evidently the Socony Vacuum people are satisfied to let the matter stand as is at least for the present.

Very truly yours,

J. A. Costello

Ethyl Gasoline Corporation
Chrysler Building
New York, New York

Attention: Mr. J. A. Costello

Dear Sir:

Thank you for your letter in connection with [REDACTED]. I have contacted our Boston office and find that they have not seen nor heard from Chapman for the past five weeks.

It is felt advisable not to insist upon an examination at this time. When he reappears for work he will be discharged. If at that time there is any intimation on his part that he is claiming an occupational disease we will arrange for an examination by Dr. Bowman. This man has not been engaged in tank cleaning since April 1940.

If there are any further developments of interest, I will advise you.

Very truly yours,

E. R. Alden
