Mr. John T. Balch
Process Equipment Sales
Coslin-Birmingham
P. O. Box 631
Birmingham, Alabama 35201

Dear Mr. Balch:

Thank you for your prompt proposal.

Monsanto's Central Engineering Department has now been assigned the problem of renovating the materials handling section of the Aroclor/Biphenyl complex. I have forwarded the gist of your proposal with my recommendation (acceptance); however, with the reassignment of design responsibility, I cannot even guess at whether my scope will be accepted. I shall try to keep you informed as to the fate of the proposal.

Very truly yours,

John MacPherson
Senior Process Engineer
Technical Services Dept.
