Dear Harry:

I recently received a copy of American Brakeblok's statement of policy and procedures booklet.

I find it very informative, and I'm sure our Distribution Centers will put it to good use. The only comment I have is that this should probably have been printed on 8 1/2 x 11" paper running vertically, and punched, so that it could easily be adapted to our Distribution Centers' Manufacturers Procedure Book.

It might be advantageous for you to consider this, as I know it would be easier for our Distribution Centers to have the information readily available in that form.

Best regards,

N A P A
