Dear Professor Kehoe,

Thank you for your letter of 31st October, 1978, I have written to Pat Barry and he says he will be travelling on the Monday before the I.L.Z.R.O. meeting, but hopes to see you during it. But since looking at your data might take Ray Higgins and me a little time, as we have not seen it before, and since we have arranged to travel on the Sunday, and have Monday free, I wonder if we might contact you at say 10.00 a.m. on the Monday morning to see how you are placed?

Look forward to seeing you,

Yours sincerely,

M.K. Williams
