MANUFACTURING CHEMISTS ASSOCIATION

1825 CONNECTICUT AVENUE, N.W. WASHINGTON, D. C. 20009 (202) 483-6126

March 22, 1974

To: INDUSTRY PARTICIPANTS IN EPA BRIEFING ON VINYL CHLORIDE

Subject: Suggested Program Outline and Organization.

Gentlemen:

Attached hereto is a draft of a proposed program for subject briefing in the MCA Conference Room on April 2. Please respond promptly with recommended additions or deletions and with your suggestions for the make-up of each panel. Also identify any specific data that you wish to have incorporated in the panel discussions.

At the suggestion of a number of industry representatives, a planning session will be held on Monday evening, April 1 (the evening before the EPA briefing) to complete plans for the presentations. This is scheduled for 7:30 PM, in the small MCA conference room (Room 407, directly across from the elevators). At this hour, the Connecticut Avenue entrance will be closed, and you are asked to use the Florida Avenue door; the building guard will require that you sign the after-hours registry.

Please indicate to me, by phone or letter, who will be attending the meeting for your company, and whether or not he will participate in the planning session. Because of space limitations, each company is asked to limit its representation to one man. We, on prior request, may be able to make limited exceptions to this rule in the case of companies providing panel experts in two or more areas of expertise.

Sincerely,

Kenneth D. Johnson, Ph.D.
Secretary
Technical Task Group on Vinyl
Chloride Research
