Attention: Secretary to
Mr. Raycroft

Dear Miss Secretary:

In a conference with Mr. Raycroft yesterday afternoon, it became apparent that we needed a copy of the Report of Industrial Hygiene Sessions, 15th Annual Convention, National Battery Manufacturers Assn. Part II, (1939). Mr. Raycroft suggested that I write you and obtain a copy of this at the earliest possible time for our use in connection with some work he has asked us to do. Inasmuch as he will be out of his office for some days, he felt it advisable not to delay until he returned. I should appreciate it very much if you would send me a copy of this booklet at your early convenience. If you wish, I can return it to you when it has served its purpose.

Very truly yours,

Robert A. Kehoe, M. D.
