Dear Dr. Kehoe:

Once again we are indebted to you for your very interesting report of October 13th. We believe that we have found some of our faults and we are running off another batch of tubes to be sent to you for your approval.

We will try to get these on the way to you before the week is over, and if possible, would like as early a reply as possible since I expect to be in Cincinnati on about the 19th of November, at which time, with your permission, I would like to stop in to see you and go over this problem personally.

Again I want to assure you that your cooperation is very much appreciated.

Sincerely yours,

BECTON, DICKINSON & CO.
