Is the STUCCO Finish on Your Home Paint Thirsty?

If the finish looks DRAB, STAINED or "SPONGY," it needs painting to renew the beauty, and weather-proof the surface — but, BEFORE you paint, let our experienced experts check your STUCCO and recom- mend the BEST finish for your particular job.

FREE Inspection

... of your STUCCO or Masonry Building BEFORE painting may save you money and assure a far more satisfactory job. Our Paint Specialists with the help of the scientific "Moisture Meter" can accurately check "Behind the Surface" to determine the condi- tion of your Stucco Building. No cost or obligation for this FRAZEE'S Service.
