REG. U. S. PAT. OFF.

Harrison Brand Oil Colors—For over 100 years recognized by master painters as the standard by which quality oil colors are judged. Manufactured by careful and fine grinding of strong, clean, clear-toned colors in pure raw linseed oil. Important and unique is the fact that the same high quality Du Pont "Harrison Brand" oil colors are available in popular painter size tubes, as well as in the usual gallon, quart and $\frac{1}{4}$ pt. cans.

White Lead in Oil—Famous "Harrison Brand" pure carbonate white lead ground in refined linseed oil. Furnished in Stiff Paste and Soft Paste consistency. There is no better White Lead in Oil made.

Trim & Trellis Finishes—The extremely popular "DULUX" type exterior trim finishes in 4 shades of green, black and Old English Brown. Judged by any standard these finishes have no equals for clearness and brightness of tone, permanency of color, retention of gloss, resistance to mildew and fungous growths—general durability. Trim & Trellis finishes dry out of dust, bugs and hazardous rains much faster than orthodox trim finishes, yet possess normal type brushing time and ease of application.
