P. O. Box 247
Bodega Bay, California 94923

Dear Bob:

I am sending under separate cover samples of Aroclor 1016, Aroclor 1242 and Aroclor 1254 which represent the only PCB materials still being manufactured.

Our normal supply of Aroclor 1248 and Aroclor 1260 samples was depleted long ago. I will attempt to find a few ounces in Scott Tucker's laboratory. If he can spare some I will have him mail it to you.

Sincerely,

W. B. Papageorge
