H. J. VOORNIES
VICE PRESIDENT AND GENERAL MANAGER

Consultants on Air Pollution

Mr. C. E. Paules
Standard Oil Development Company
P. O. Box 121
Linden, New Jersey

Dear Mr. Paules:

We are considering engaging the services of certain members of the Chemistry faculty at Louisiana State University, on a private consulting basis, to determine the nature and amount of any contaminants which may be present in the atmosphere in Baton Rouge. This is discussed in more detail in the attached copy of a letter to Mr. William Naden. In view of your experience in air pollution problems and investigations, we would appreciate any comments you may have on the plan suggested in the attached letter.

Very truly yours,

H. J. VOORNIES
