

1 I am aware of that one, yes.

2 Q Okay. Again, this is a document that would
3 have been sent to Ford and Lincoln-Mercury dealers,
4 not to independent service garages?

5 A I can't think of the name. Helm
6 Publications are the ones that write all of these as
7 well, yes.

8 Q Would you agree that this 1975 technical
9 bulletin doesn't mention anything about no grinding
10 and no sanding?

11 A In this particular one it says you clean the
12 brake with a vacuum cleaner. It says use good exhaust
13 ventilation. Good common sense, yes.

14 Q Sure. I would like to show you the next
15 document, Ford Defense Exhibit 42, and ask you if you
16 could identify that for us, please.

17 A It has health safety environmental hazard
18 information, but it doesn't say who it is from. It is
19 dated November, '83. Apparently it was from some Ford
20 document --

21 Q I don't mean to interrupt.
