Dear Dr. Hansen:

Your letter asking for information on Du Pont Dulux® Mixing Enamels has been sent to me for reply.

The name Dulux® Mixing Enamel covers a whole line of products which differ primarily in the amount and type of pigment present. As a representative formula for this line of products, I have listed below the ingredients in #1 White Dulux® mixing enamel:

		weight percent
Pigemtns		
	titanium dioxide	12%
Resins		
	Soya alkyd resin	15%
	CWO alkyd resin	22%
Solvents		
	toluene	8%
	xylene	2%
	aliphatic hydrocarbons	7%
	aromatic hydrocarbons (benzene free)	29%
	V.M. & P. naphtha	5%
		100%

N38387

I trust this information will be adequate for your purposes. It is understood that the information divulged here will be kept in strict confidence.

If I can be of further assistance, please do not hesitate to contact me.

Very truly yours,

W. W. Miller
Toxicity Coordinator
