England

Dear Alan:

Referring to your letter of August 15 for which I thank you, I am sorry that our respective schedules prevented us from meeting in Denver at this time.

I understand that Lutz Siebert has scheduled a meeting with you in Manchester in early October. I would appreciate it if you would discuss with him those points to which you referred in your letter.

With best regards,

Sincerely yours,

D. Poutiatine
General Marketing Manager
Asbestos Fiber

Dear Dimitry,

You will by now have received via Jean Marc Leblond our request for the cancellation of 1,000 tons of 6D-30 against TAC's 1978 contract. I very much regret having had to make this request particularly as I had assured you that our 1978 contracts would be honoured contrary to the situation in previous years. The reason for this cancellation is principally the further serious deterioration in demand for asbestos based products in the U.K., but demand for this particular grade is also affected by certain other factors which I cannot at this stage disclose but which I will discuss with you during our next meeting. Suffice to say at this stage that whilst our demand for fibre from Johns-Manville has been reduced we are actively seeking to increase our purchases for the U.K. of your asbestos based products, and we hope that a balance will be achieved in the overall situation.

Once again, many apologies for the cancellation which we have had to make.

Kindest regards,

Yours sincerely,

Would like to review this with Alan when you and Maurice next liv next.
