B. Off-the-Job Safety Performance

	Cases	Frequency
January	0	0.00

II. POLICY CHANGES

A. Fire, Entry and Special Permit Procedure

The elimination of leadman's signature on permits has been reviewed with operating and maintenance field personnel. A statement on the policy change will be issued by Tom Ryan to be conveyed to all personnel. This change in procedure will take effect March 18, 1985.

SC 13693

LAM015442

III. ACTION ITEMS

A. Ex-Battery Limits Pipelines

This issue has been settled and the original document with a few revisions will be followed. Exceptions to the policy will be defined by Manufacturing and Distribution and conveyed to their personnel.

B. Chemical Matrix Data

Chemical matrix data sheets will be developed for units and laboratories. These will be reviewed by a committee to assure uniformity. Sheets will then be displayed in high visibility locations for use by all personnel.

C. Instrument PM Lists

Reviews are now taking place. Updated lists will be made available to all necessary personnel.

D. Annual Safety and Housekeeping Inspection

Action items need to be reviewed and a status report given at next month's PMSB.

E. Painting of Safety Shower/Eyebath

An estimate was made of the cost of painting safety showers and eyebaths in the plant with high visibility fluorescent green paint. The cost for this work would be approximately $50,000 for the plant (over 400 units). PMSB approval given. Information will be disseminated to the units concerning this.
