SABINITE

T. M. Reg. U.S. Pat. Off.

acoustical plaster

There's nothing like noise to get on your nerves, but that's no reason for moving out of your office. You don't have to go in business on the beach.

Instead, bring QUIET indoors. Wise building managers know that QUIET means increased tenant satisfaction. They know that QUIET has a cash value.

SABINITE Acoustical Plaster creates QUIET—provides sound absorption quickly and easily with one material.

SABINITE goes right on over your present ceilings quickly... its beautiful surface is smooth and bright, with high light reflection.

SABINITE in four pastel colors or ovster white lends itself perfectly to any type of architecture, or can be painted, according to directions, to harmonize with any decorative scheme.

SABINITE is the practical, low cost solution to your tenant's noise problems. It's a sure way to greater property values.
