DOCUMENT DESCRIPTION: Letter

January 22, 1945

Dr. Dudley A. Irwin
Medical Director
Aluminum Company of America
Post Office Box 772
New Kensington, Pennsylvania

Dear Dr. Irwin:

I have at last heard from Dr. Peterson that presumably the Congress on Industrial Health will be allowed to hold its meeting in Chicago.

After studying the program and my own commitments there I would suggest that we plan to have dinner together on the evening of Wednesday, February 14. I hope this date will be convenient for you. Pete has arranged a pretty heavy schedule and it looks as if all of us would be working at a lot of things.

Personally I am relieved that it will not be necessary for me to stop in Arkansas on my way West. I am sorry for your sakes that the Commission has refused permission to reopen the case.

Will hope to see you in Chicago.

Sincerely yours,

Leroy U. Gardner, M. D.
Director
