ATTN Mr. Gene Rouse
c/o Shell Intercompany Mail

Dear Sir:

Attached are Industrial Hygiene sampling results for asbestos collected on TIPCO employees while removing a tar felt insulation containing asbestos. Due to weather conditions, the employees were not monitored for their entire workshift while removing insulation, therefore, an eight-hour time-weighted average exposure level cannot be calculated.

We appreciate the cooperation of your employees for participating in this important endeavor. We encourage you to communicate these results to your personnel.

If you have any questions, please contact me at 476-7374.

Sincerely,

A handwritten signature in cursive script, appearing to read "A.F. Schmit", is located below the "Sincerely," text.
