would leave -- they would be behind in there working and you would have to leave a wall open and they would have to come back and cover that while we was working in the rooms, too, and the ceilings, the same thing.

Q Okay. Now, sir, at the Sinai Hospital in '58 during the 12 months that you and Mr. Vandergucht were there, do you know who employed the pipecoverers who were putting the Kaylo on the pipes at this location?

A McCormick Asbestos.

Q McCormick Asbestos?

A McCormick Asbestos Company.

Q And had you ever worked for them?

A Yes, I have.

Q Sir, could you tell me just approximately how much a piece of pipecovering weighed or if there are ranges?

A They came in different sizes, different thicknesses rather.

Q Okay.

A And the sizes was mostly -- lengths was like
