

1 you are right that the forsterite circumstance in that
2 area does not apply.

3 Q And the arcing that you did a few years with
4 Mr. Tolar or the grinding that you have told us about
5 that you have done before, did you bring any of your
6 pictures here today to show the ladies and gentlemen
7 of the jury how the fibers appear with articles
8 attached?

9 A Only the materials that were appended in my
10 report that you have.

11 Q That did not involve any grinding pictures,
12 did it?

13 A I believe it did. I believe one of the
14 pictures depicts what looked like a blimp-like
15 element. I think that was taken from the grinding
16 picture, if I recall correctly.

17 Q Now, sir, I noted in your study that there
18 were no numbers or charts that we showed for the jury
19 on what levels you measured during the grinding
20 procedure.

21 Do you have those here today?
