Dear Mr. Boone,

Thank you for your November 26th letter regarding prices for Libby Ore, and also the advice that Gene Perrine is no longer with Zonolite. I am writing to ask your assistance in redirecting previous enquiries which I sent to Gene Perrine and also progressing a further enquiry from Neuchatel, Australia.

I wrote to Gene Perrine on November 4th, one letter covering the failure of Monokote Mk I in a fire resistance test here and the other regarding health hazards of asbestos containing fine proofing materials. As yet no answer has been received and I would appreciate your checking on whether the correspondence has been acted on and if so by whom. Would you also advise to whom I should direct any technical queries in future. I should tell you that I am acting as the contact point between Neuchatel and your Company so that we can keep in touch with the activity at Neuchatel and hopefully progress their requirements for information more fruitfully.

I have a further enquiry from Neuchatel for urgent mailing of the results of the U. L. I. fire resistance tests which were performed on Monokote in the U.S.

...../2.

Would you expedite this request  
please and advise me of the arrangements for sending  
the information.

Many thanks for your help.

Yours very truly,  
W. R. GRACE AUSTRALIA LTD.
