Dear Bob:

Enclosed is a copy of the article 'On the Cancerogenic Effect of Asbestos Dust", F. M. Kogan, S. Y. Troitsky, M. R. Guleusksye which is teken from my current issue of Gigiena i Sanitariya, Vol. 31, No. 8, pages 28-33 (August 1966). I thought this might be of interest to you and Dr. Gross since the paper by Dr. Braun and Dave Truan is used as a reference. From the English summary, it sounds like an interesting article.

I look forward to seeing you at the Annual Meeting.

Best personal regards.

Sincerely
