TYPE OF ALLEGED VIOLATION(S): Non-serious

7. An inspection was made on March 7, 8 and 9, 19 78 of a place of employment located at:

8. 1300 Archdale Drive, Charlotte, North Carolina and described as follows:

9. Organic fibers

On the basis of the inspection it is alleged that you have violated the North Carolina Occupational Safety and Health Act of 1973, in the following respects

10. Item No.	11. Standard, regulation or section of the Act allegedly violated	12. Description of alleged violation	13. Date by which alleged violation must be corrected.
1	29 CFR 1910.242(b)	Failure to reduce air pressure used for cleaning purposes in first floor machine shop and fourth floor chip drying area to less than 30 p.s.i.	May 15, 1978
2	29 CFR 1910.212(a)(1)	Failure to guard ingoing nip points on plying machine on first floor.	May 15, 1978

The law requires that a copy of this citation, shall be prominently posted in a conspicuous place at or near each place that an alleged violation referred to in the citation occurred. The citation must remain posted until all alleged violations cited therein are corrected, or for 3 working days', whichever period is longer.

RIGHTS OF EMPLOYEES

Any employee or representative of employees who believes that any period of time fixed in this citation for the correction of a violation is unreasonable has the right to contest such time for correction by filing a notice with the N. C. Department of Labor at the address above within 15 working days of the receipt by the employer of notice of proposed penalty or notice that no penalty is being proposed.

"No employee shall be discharged or discriminated against because such employee has filed any complaint or instituted or caused to be instituted any proceeding or inspection under or related to this Act or has testified or is about to testify in such proceeding or because of the exercise by such employee on behalf of himself or others of any right afforded by this Act." Sec 5(b) of the North Carolina Occupational Safety and Health Act of 1973.

TYPE OF ALLEGED VIOLATION(S): Non-Serious

An inspection was made on July 6, 19 82 of a place of employment located at: US Hwy. 70 West, Salisbury, NC and described as follows: Manufacturer of polyester

On the basis of the inspection it is alleged that you have violated the Occupational Safety and Health Act of North Carolina in the following respects:

Item No.	Standard, regulation or section of the Act allegedly violated	Description of alleged violation	Date by which alleged violation must be corrected
1	29 CFR 1910.212(a)(1)	One or more methods of machine guarding were not provided to protect the operator and other employee(s) in the machine area from hazards such as those created by point of operation, ingoing nip points, rotating parts, flying chips and sparks: unused portion of revolving blade on horizontal bandsaw blade in central shop.	Aug. 25, 1982
2	29 CFR 1910.307(b)	Equipment, wiring methods, and installations of equipment in classified locations were not intrinsically safe, approved for the hazardous (classified) location, or safe for the hazardous (classified) location: fluorescent light fixtures not approved for Class II hazardous location or provided with enclosures to minimize the deposit of dust on lamps and to prevent the escape of sparks, burning material or hot material or hot metal in the CP area on second and first floor of K building.	Sept. 15, 1982

The law requires that a copy of this citation shall be prominently posted in a conspicuous place at or near each place that an alleged violation referred to in the citation occurred. The citation must remain posted until all alleged violations cited herein are corrected, or for 3 working days*, whichever period is longer.

RIGHTS OF EMPLOYEES

Any employee or representative of employees who believes that any period of time fixed in this citation for the correction of a violation is unreasonable has the right to contest such time for correction by filing a notice with the N. C. Department of Labor at the address above within 15 working days of the receipt by the employer of notice of proposed penalty or notice that no penalty is being proposed.

"No employee shall be discharged or discriminated against because such employee has filed any complaint or instituted or caused to be instituted any proceeding or inspection under or related to this Act or has testified or is about to testify in such proceeding or because of the exercise by such employee on behalf of himself or others of any right afforded by this Act." See G. S. 95-130(8) of The Occupational Safety and Health Act of North Carolina.

*Under the Occupational Safety and Health Act, the term "Working Day" means Mondays through Fridays but does not include Saturdays, Sundays, or State Holidays.

TYPE OF ALLEGED VIOLATION(S): Non-serious

7. An inspection was made on August 22 - 25 September 11, 12, 20-22 & 27-29, 19 78 of a place of employment located at:

8. Highway 70 West, Salisbury, North Carolina and described as follows:

9. Manufacturer of polyester

On the basis of the inspection it is alleged that you have violated the North Carolina Occupational Safety and Health Act of 1973, in the following respects:

10. Item No.	11. Standard, regulation or section of the Act allegedly violated	12. Description of alleged violation	13. Date by which alleged violation must be corrected
43.	29 CFR 1910.95	A. Subjecting employees in pack stripping G building, spin draw K building, staple spinning H building, draw frame platform J building, polymer recovery unit P building to sound levels exceeding those listed in Table G-16 and failure to provide a continuing effective hearing conservation program, that includes feasible engineering and administrative controls.*	October 31, 1979
		B. Personal protective equipment (ear plugs, muffs, or other means) not used by employees, in pack stripping G building subjected to sound levels exceeding those listed in Table G-16 during the interim period required to achieve compliance by engineering or administrative means.	November 16, 1978
		*Enclosed Guideline Plan NCSU IES SAH-1 (or similar) to be completed and copy returned to the NC Department of Labor, OSHA Division by December 29, 1978. Progress reports must be filed with this office, during the abatement period, on the following dates: January 31, 1979 April 30, 1979 July 31, 1979	

The law requires that a copy of this citation shall be prominently posted in a conspicuous place at or near each place that an alleged violation referred to in the citation occurred. The citation must remain posted until all alleged violations cited therein are corrected, or for 3 working days*, whichever period is longer.

RIGHTS OF EMPLOYEES

Any employee or representative of employees who believes that any period of time fixed in this citation for the correction of a violation is unreasonable has the right to contest such time for correction by filing a notice with the N. C. Department of Labor at the address above within 15 working days of the receipt by the employer of notice of proposed penalty or notice that no penalty is being proposed.

"No employee shall be discharged or discriminated against because such employee has filed any complaint or instituted or caused to be instituted any proceeding or inspection under or related to this Act or has testified or is about to testify in such proceeding or because of the exercise by such employee on behalf of himself or others of any right afforded by this Act." Sec 8(h) of the North Carolina Occupational Safety and Health Act of 1973.

*Under the Occupational Safety and Health Act, the term "Working Day" means Mondays through Fridays but does not include Saturdays, Sundays, or State Holidays.

7. An inspection was made on August 22 - 25, September 11, 12, 20-22 & 27-29 19 78 of a place of employment located at:

8. Highway 70 West, Salisbury, North Carolina and described as follows:

9. Manufacturer of polyester

On the basis of the inspection it is alleged that you have violated the North Carolina Occupational Safety and Health Act of 1973, in the following respects:

Item No.	11. Standard, regulation or section of the Act allegedly violated	12. Description of alleged violation	13. Date by which alleged violation must be corrected
1	29 CFR 1910.23(c)(1)	No guard rail provided for open section of loading platform on north end of north/south hall at B building mezzanine level and adequate railing not provided for open-sided walkway in yard on south end of building leading to oil storage tank.	November 16, 1978
2	29 CFR 1910.133(a)	Eye and face protection (full face shield to supplement safety glasses) not made available, or used by, employees exposed to sulfuric acid in laboratory of waste treatment plant, sulfuric acid, hydrochloric acid reagent and corrosives in testing laboratory of T building.	November 16, 1978
3	29 CFR 1910.151(c) "Repeated"	(A) Failure to provide suitable facilities for quick drenching of the eyes and body for employees that handle caustic and catalyzed sodium sulfite in chemical storage and weighing room of T building, o-chlorophenol at OCP storage area on third floor of G building, and caustic at open surface quench tanks at salt bath/pack stripping area of G building. (B) Failure to provide suitable facilities for quick drenching of the eyes for employees that handle sulfuric acid and corrosives in testing laboratory of T building.*	December 21, 1978

The law requires that a copy of this citation shall be prominently posted in a conspicuous place at or near each place that n alleged violation referred to in the citation occurred. The citation must remain posted until all alleged violations cited therein are orrected, or for 3 working days*, whichever period is longer.

RIGHTS OF EMPLOYEES

Any employee or representative of employees who believes that any period of time fixed in this citation for the correction of a violation is unreasonable has the right to ontest such time for correction by filing a notice with the N. C. Department of Labor at the address above within 15 working days of the receipt by the employer of notice proposed penalty or notice that no penalty is being proposed.

"No employee shall be discharged or discriminated against because such employee has filed any complaint or instituted or caused to be instituted any proceeding or spection under or related to this Act or has testified or is about to testify in such proceeding or because of the exercise by such employee on behalf of himself or others any right afforded by this Act." See 5(h) of the North Carolina Occupational Safety and Health Act of 1973.

*Under the Occupational Safety and Health Act, the term "Working Day" means Mondays through Fridays but does not include Saturdays, Sundays, or State Holidays.

4. DATE May 4, 1979

SUBJECT: Citation for Alleged Occupational Safety and Health Violation(s)

An inspection of a workplace under your operation, ownership, or control has revealed conditions which we believe do not comply with the provisions of the North Carolina Occupational Safety and Health Act of 1973. The nature of such alleged violation(s) is described in the enclosed citation with references to applicable standards, rules, regulations, and provisions of the said Act. These conditions must be corrected on or before the date shown to the right of each violation therein.

POSTING

The Act requires that a copy of the enclosed citation(s) be prominently posted "in a conspicuous place upon receipt" at or near each place a violation referred to in the citation occurred. It must remain posted until all violations cited therein are corrected, or for 3 working days, whichever period is longer. A sufficient number of copies of the attached citation(s) should be prepared to permit posting in accordance with the requirements of the Act. The Act contains penalties for violation of the posting requirements.

If you contest the citation you must post a notice to this effect near the citation contested.

ALLEGED VIOLATIONS & RESPONSE

Alleged violations that are not contested shall be corrected to eliminate the hazard within the abatement period specified in the citation. Failure to correct an alleged violation within the abatement period may result in a further proposed assessment of penalties.

As to alleged violations, you are directed to promptly advise the Director as to the specific corrective action on each such violation and the date of such action. OSHA 2-D forms and self-addressed envelopes are enclosed for your use.

Alleged violations having longer abatement periods will require as specified on the citation, progress reports detailing what has been done, what remains to be done, and the time needed to fully abate each such violation. When the alleged violation is fully abated, the Director shall be so advised using the OSHA 2-D forms.

REQUEST FOR ABATEMENT EXTENSION

You must request required extensions of abatement periods in writing prior to final abatement dates. Extensions may be granted if the delays are unavoidable and interim employee protection methods are provided. All requests must be directed to the OSHA Director. Failure to obtain extensions prior to the abatement dates may result in additional failure to abate penalties.

PROPOSED PENALTIES

Enclosed:
- ☐ Proposed penalty notice enclosed
- ☐ No proposed penalties
- ☒ No change in penalty — Amended citation issued

INFORMAL CONFERENCE

If upon receipt of a citation you have any questions or misunderstandings relative to the citation, you may discuss the item by telephone or arrange an informal conference with the Director or his designee.

CONTESTING

You have the right to contest the citation(s), the proposed penalties, or both, before the Occupational Safety and Health Review Board. The Review Board is an independent quasi-judicial agency with authority to issue decisions regarding citations and proposed penalties. If you do contest you must so notify the Director within 15 working days after receipt of this certified mail notice regarding alleged violations and proposed penalties. If you fail to contest within the 15 working day period, the citation and proposed penalties shall be deemed to be a final order and not subject to review by any court or agency.

Any employee or representative of employees may file a notice to contest the time stated in the citation for the abatement of the alleged violation(s). The appeal must be filed within 20 calendar days of citation receipt.

FOLLOW-UP INSPECTION

Follow-up inspections may be conducted to ascertain that you have posted the citation(s) as required by the Act and corrected the alleged violations as you have reported. The Act provides that whoever knowingly gives false information is subject to a fine up to $10,000, imprisonment up to 6 months, or both.

FAILURE TO ABATE VIOLATIONS

Violations not corrected by the final abatement dates may result in additional failure to abate penalties.

If you wish additional information, you may direct such request to the undersigned or Director, OSHA Enforcement at the address listed above.

Office of Occupational Safety and Health

NOTIFICATION OF PROPOSED PENALTY

1. SO/IH No.	2. OSHA-1 No.
B0436	007-79

3. TO: Fiber Industries, Inc.
P.O. Box 4
Salisbury, N.C. 28144

On the 4. Tenth day of January, 19 79, a Citation(s) was (were) issued to you in accordance with the provisions of section 12(a) of the North Carolina Occupational Safety and Health Act of 1973 hereinafter referred to as the Act. You were thus notified of certain alleged violations of the Act, as specified in that Citation(s).

YOU ARE HEREBY NOTIFIED that pursuant to the provisions of sections 13 or 14 of the Act, the penalty(ies) set forth below is/are being proposed, based on the above Citation(s):

5. SERIOUS VIOLATIONS

Citation No.		Proposed Penalty Due
ONE	Item 1	$600.00
	Item 2A	$600.00
	Item 2B	

6. OTHER VIOLATIONS

Citation No.	Item No.	Proposed Penalty Due

7. Total for all Alleged Violations $1200.00

*The above penalty is DUE WITHIN 15 WORKING DAYS after receipt of this notice and may be mailed along with Form OSHA-2D. The penalty shown for "Other Violations" **has been** reduced by 50% for the anticipated corrective action taken within the prescribed abatement period. If a particular alleged violation is not corrected within this period, an automatic additional penalty of 50% will be proposed for each violation. However, if you contest an alleged violation or proposed penalty in good faith before the Review Board, the period for correction of the violation or payment of penalty does not begin to run until the entry of a final order by the Review Board affirming the Citation. The proposed penalty is exclusive of such other additional penalty as may subsequently be proposed for failure to correct a violation within the abatement period.

The payment of penalties is to be made by certified check or money order, payable to the order of North Carolina Occupational Safety and Health Administration, Department of Labor, Raleigh, N. C.

YOU ARE FURTHER NOTIFIED that the aforesaid Citation(s), this Notification, and the proposed assessment shall be deemed final and not subject to review by any court or agency, unless, within 15 working days from the date of receipt of this notice, you notify the official named below in writing that you intend to contest the Citation or this Notification of Proposed Penalty before the Review Board. The Review Board is an independent quasi-judicial agency with authority to issue decisions regarding citations and proposed penalties.

There is no requirement that this Notification be posted.

9. Production of Polyester Fiber

On the basis of the inspection it is alleged that you have violated the North Carolina Occupational Safety and Health Act of 1973, in the following respects:

10. Item No.	11. Standard, regulation or section of the Act allegedly violated	12. Description of alleged violation	13. Date by which alleged violation must be corrected
1	29 CFR 1910.1001 (h)(1)	Employer failed to maintain external surfaces in place of employment free of accumulations of asbestos fibers, which with dispersion would cause an excessive concentration, such as in K-4 West area on second floor; H7 ejector floor.	January 10, 1980
2	29 CFR 1910.134 (d)(2)(ii)	Failure to install on the oil lubricated compressors a high temperature or carbon monoxide alarm, or both. (If only a temperature alarm is used, the air from the compressor shall be frequently tested for carbon monoxide.	April 10, 1979
3	29 CFR 1910.134(a) (2)	Failure to establish and maintain a respiratory program which includes the requirements outlined in 1910.134(b)* *See Operational Procedures Notice-2 on respirator approval, enclosed.	March 10, 1979

The law requires that a copy of this citation shall be prominently posted in a conspicuous place at or near each place that an alleged violation referred to in the citation occurred. The citation must remain posted until all alleged violations cited therein are corrected, or for 3 working days, whichever period is longer.*

RIGHTS OF EMPLOYEES

Any employee or representative of employees who believes that any period of time fixed in this citation for the correction of a violation is unreasonable has the right to contest such time for correction by filing a notice with the N C Department of Labor at the address above within 15 working days of the receipt by the employer of notice of proposed penalty or notice that no penalty is being proposed.

"No employee shall be discharged or discriminated against because such employee has filed any complaint or instituted or caused to be instituted any proceeding or inspection under or related to this Act or has testified or is about to testify in such proceeding or because of the exercise by such employee on behalf of himself or others of any right afforded by this Act." See 5(h) of the North Carolina Occupational Safety and Health Act of 1973.

*Under the Occupational Safety and Health Act, the term "Working Day" means Mondays through Fridays but does not include Saturdays, Sundays, or State Holidays

ASBESTOS SAMPLE RESULTS

JUNE 29, 1979

These samples were taken prior to the cleanup operation. These samples were taken at random in the CP/Spinning areas of H and K Buildings.

JUNE 30, 1980

These samples were taken after completion of the cleanup. These samples were also taken at random in the CP/Spinning areas of H and K Buildings. Sample 3 contained <1% asbestos. Sample 3 was taken from a crack in the wall and would not constitute a violation of the housekeeping standard. Sample 7 was known to be asbestos and was used as a control.

Ms. Joan Wronski
National Loss Control Service Corporation
Long Grove, Illinois 60049

Dear Ms. Wronski:

We have completed our analysis for asbestos in the six bulk samples submitted with your letter of 20 June. These samples were identified as 11286-11291.

The samples were examined by polarized light microscopy and dispersion staining. The results of this examination are given in the following table:

Sample	Type asbestos	% Wt.	Other fibrous material
11286	none	--	cellulose, trace
11287	chrysotile	10	none
	amosite	50	
11288	none	—	glass 60%
			cellulose 10%
11289	amosite	15	none
11290	none	--	polyester 50%
11291	none	--	polyester 80%

Thank you for consulting McCrone Associates. If there should be any questions concerning these results please call me.

Yours sincerely,

Mark Palenik
Research Microscopist

FIBER INDUSTRIES, INC.

TO D. V. Perry REF NO.

FROM B. T. Bowyer REF. NO. BTB-48-80 DATE Aug. 27, 1980

SUBJECT: ASBESTOS HOUSEKEEPING COMPLIANCE
OSHA FILE 24,648
CITATION TWO
ITEM NO. 1, ASBESTOS ACCUMULATION

As a result of an OSHA citation in August, 1978, we were made aware of housekeeping problems associated with the removal of insulation containing asbestos. It was pointed out that small quantities of this insulation had accumulated on surfaces in certain areas.

To achieve compliance a cleanup crew was established, the existing procedure was upgraded and the cleanup crew was trained in proper handling methods. This crew throughly cleaned floors, equipment, pipes, ducts, structural steel and other surfaces to remove possible accumulations of asbestos material. To verify the effectiveness of the cleanup, samples of debris were taken before and after cleanup and the samples were analyzed for the presence of asbestos. Results of these samples are attached. Labor expenditures of $44,482 and material cost of $5,742 were required to complete the cleanup.

The following areas were cleaned:

1. Glycol Recovery Unit
2. Dowtherm Yard Areas (H & K Bldg.)
3. Boilers House (T Bldg.)
4. Continuous Polymerization Areas (1st, 2nd and 3rd floors in both H & K Bldg.)
5. Spin Draw Area (1st floor & 1st Floor Mezz., K Bldg.)
6. Staple Spinning Area (1st Floor Mezz, H Bldg.)
7. Staple Processing Area (1st Floor & 1st Floor Mezz, J Bldg.)

With completion of the cleanup and with analyses of samples showing no remaining asbestos accumulation, we are now in compliance with the housekeeping section of the OSHA asbestos standard (29 CFR 1910-1001(h)(1))

TYPE OF ALLEGED VIOLATION(S): Non-Serious 24,648

7. An inspection was made on Sept. 5,6,7,8,11,12,13,14, and Aug. 22,23,24,25,28,29,30,31, 19 78 of a place of employment located at:

8. Highway 70 West, Barber Junction, Salisbury, North Carolina and described as follows:

9. Production of polyester fiber

On the basis of the inspection it is alleged that you have violated the North Carolina Occupational Safety and Health Act of 1973, in the following respects:

10. Item No.	11. Standard, regulation or section of the Act allegedly violated	12. Description of alleged violation	13. Date by which alleged violation must be corrected
		THE ABOVE CITATION NUMBER, ISSUED 1-10-79 IS AMENDED AS SET FORTH BELOW. THIS CITATION IS AMENDED TO EXTEND THE ABATEMENT DATE ONLY.	May 31, 1979

The law requires that a copy of this citation shall be prominently posted in a conspicuous place at or near each place that an alleged violation referred to in the citation occurred. The citation must remain posted until all alleged violations cited therein are corrected, or for 3 working days, whichever period is longer.

RIGHTS OF EMPLOYEES

Any employee or representative of employees who believes that any period of time fixed in this citation for the correction of a violation is unreasonable has the right to contest such time for correction by filing a notice with the N.C. Department of Labor at the address above within 15 working days of the receipt by the employer of notice of proposed penalty or notice that no penalty is being proposed.

No employee shall be discharged or discriminated against because such employee has filed any complaint or instituted or caused to be instituted any proceeding or inspection under or related to this Act or has testified or is about to testify in such proceeding or because of the exercise by such employee on behalf of himself or others of any right afforded by this Act. See 8(f) of the North Carolina Occupational Safety and Health Act of 1973.

Under the Occupational Safety and Health Act the term "working day" means Mondays through Fridays but does not include Saturdays, Sundays, or State Holidays.
