3

EXPERIENCE

1950-56

General acute medicine specialising in chest diseases.

1957-63

Mines Medical Officer based at Kalgoolie. Appointed under the Mines Regulation Act mainly to carry out duties under the Mines Regulation Act and the Mines Workers Relief Act. Developed interest in occupational health, particularly in the prevention of pneumoconiosis by improved dust sampling methods and dust suppression.

1964-74

After studying industrial health in London in 1964 practised occupational health as Physician and later Director until 1974. During these years closely involved with occupational health aspects of amendments to the regulations under the Mines Regulation Act, the Noise Abatement Act, the Radiation Safety Act, the Factory and Shops Act and the Construction Safety Act.

1975-84

Main concern public health and administration of a large department.

1984-87

Still closely involved with Public and Environmental Health and the provisions and regulations of the Health Act and the other Acts administered by the Health Department.

1987

Part-time Consultant, Health Department and Consultant, Occupational Health. Chairman, Alcohol and Drug Authority.

Approved Medical Practitioner, Noise Abatement Act.
