Dr. Robert A. Kehoe
College of Medicine
University of Cincinnati
Cincinnati 19, Ohio

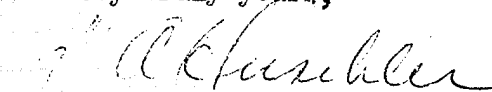

Dear Dr. Kehoe:

We are now getting together an outline from which we plan to prepare a technical paper dealing with our studies of particulate lead in exhaust gas. Even though our data are not fully complete as yet, probably we could save time if we were to discuss the general nature and content of this proposed paper now at the outset.

Dick Scales has suggested that I arrange to meet with you for this purpose shortly after your return, which I believe will be around September 1. If you have no plans to be in Detroit soon, I wonder if you would set a convenient time when I could see you in Cincinnati. Any time during September would be quite convenient for me, except for the week beginning September 5, when I expect to be away.

I'll plan to mail you a copy of the tentative outline soon, and hope to hear from you about a meeting date.

Very truly yours,

D. A. Hirschler
