REFERENCE

TO R.W. Bueker

Following is a status list of VCM tank cars remaining in the plant.

<u>Car No.</u>	<u>Contains</u>	<u>Amount (Est. Amt.)</u>
33008	RVCM	.220 MM lbs.
33021 (Empty Car)	RVCM	.220 MM lbs.
33028	RVCM	?-heel from #2 tank
33023	VCM	(.140 MM lbs.)

Please arrange to store these cars elsewhere than in Tank Farm K-1, as the 84 Bldg./Tank Farm regulated area will be de-regulated effective 8/12/75. Also, until disposition of this material can be arranged, please have the RVCM cars sampled and tested for phenol and peroxide content once a week. Significant changes in phenol content or the appearance of any peroxides should be reported to me immediately.
