

BESTWALL

JOINT SYSTEM PRODUCTS

CP-1936

PLAINTIFF'S EXHIBIT

Bestwall offers a complete line of Joint System Products, designed to conceal joints and nail heads, and to "surface-weld" Bestwall Gypsum Wallboard panels together. Properly used, these products assure smooth, seamless appearance of walls and ceilings, with joints as strong as the wallboard itself. When application is completed, the surface is ready for priming and decoration as desired with no further preparation necessary.

Bestwall Joint System products are easy to use. Instructions are included on each container. These products are economical and versatile.

The Bestwall Joint System Line includes:

1. Joint System Compound
2. Bedding Compound
3. Topping Compound
4. Tape
5. 1-Day Wallboard Joint Compound — See sheet BW-62690
6. Ready Mix Joint Compound — See sheet BW-6451

Plus special finishing products:

1. Bestex A, B, and C — See sheet BW-6515
2. Spackling Compound
3. Patching Plaster

And these adhesive products:

1. Laminating Compound — See sheet BW-62675R
2. Grabit — See sheet BW-62680

This sheet covers only the products pictured above. See separate sheets for other Bestwall products mentioned.

Taping and finishing of all gypsum wallboard joints.

BESTWALL JOINT SYSTEM COMPOUND

This is an easy mixing plasticized compound, used for bedding and topping Bestwall Tape and for spotting nail heads. Also forms a strong, durable bond between layers of gypsum wallboard, in two-ply laminated construction. The compound, a dry powder, is easily mixed with water. Shrinkage is low. Easy and economical to use, Bestwall Joint System Compound also has good shearing and feathering properties and good water resistance. It can be applied using standard hand tools or mechanical applicators such as Ames Tools.

Packaging: In Bags — 25 lb., and in 18 lb. with a 250' roll of Bestwall Tape.

In Cases packed 6 per carton — 5 lb.; 4 lb. with 60' roll of Bestwall Tape; or 4 lb. with 60' roll of Bestwall Tape and plastic knife.

Coverage: 60 lbs. of compound per 1,000 sq. ft. of wallboard.
