

MINUTES - Meeting with hydrogen Europe on the PFAS restriction

Participants:

Ms Elena Montani

- Hydrogen Europe asked about the state of play of the PFAS restriction and expressed concerns about the possible implications for the hydrogen sector and the green transition
- EM clarified that the dossier is now with ECHA, who opened a public consultation until end Sept; invited Hydrogen Europe to provide feedback
- EM also clarified that Csr is aware of industries' concerns and is closely following, and plans to organise a meeting with a broader set of industries and sectors
- EM also confirmed the commitment of this COM to ensure that the different policy priorities are balanced, and that the protection of health and environment goes hand in hand with the promotion of clean technologies
