

learning about the positions you have available at EPA. I look forward to continuing our conversation in the coming week.

In the meantime, please let me know if you need any additional information from me.

Best,

Kelly Kunding

Millan--

The cost of the charter would be approximately \$10,000.

Thanks

That's great. Thank you.

Might it be possible to put something together at the underground mine but without going underground?

Also, it would be good for us to have an idea of what the cost would be for the plane or helicopter if possible. It is certainly a very generous offer but one that we could not accept complimentary.

If those don't work, there is also a smaller, older underground mine 45 minutes from Sydney. However, there is no above ground option there.

Also, our head of Australian operations is part of the dinner on Monday. So, I think he will have the opportunity to talk and meet with the Administrator.

Thanks
