New York, New York 10017

Dear Don:

Apropos of our earlier involvement in considering the future of occupational health, I gave an address in San Francisco which expressed my views of certain aspects of the matter. I enclose a reprint, which may or may not be of interest to you. However, I have a goodly number of reprints for such use in propoganda (in the proper sense) as might be desired. If you want some copies, let me know.

Sincerely,

Robert A. Kehoe, M.D.
Professor Emeritus of
Occupational Medicine
