Subject: RE: Inquiry on Ozone

Hi Susan, our responses are attributable to an EPA spokesperson:

Is ozone smog increasing or declining in Louisiana or greater New Orleans, and why?

EPA Response: Declining due in part to precursor (VOCs and NOx) emissions going down.

Is exposure to oil-and-gas pollution among African Americans in Louisiana increasing or declining?

EPA Response: We don't have information on exposure to oil and gas emissions.

Hi Enesta,

Thank you so much for your phone call and email today. I appreciate your help on my pollution story. My deadline is tonight, Tuesday, Nov. 21.

Thanks again, Susan, [Ex. 6]

Hi Susan, per my voicemail, I am reaching out re: your inquiry on ozone and oil/gas.

After I left my voicemail, David Gray shared your email.

Please let me know your hard deadline.

Thanks,
Enesta
