Hauppauge, Long Island, New York

Dear Mrs. Ribbe:

Your letter of June 17, with reference to the relationship between lung cancer and air pollution, has been received here.

However, your questions would be more properly addressed to the Kettering Institute in Cincinnati, Ohio, and I have taken the liberty of forwarding your letter to that organization.

Sincerely yours,

CPR:pc

C. P. Rhoads, M.D.

Attention: Cancer Research Department

Gentlemen:

Is it possible to provide information regarding Cancer produced by smoke, soot, flyash, etc. emitted from incinerators located in residential zones?

We are a group of people very concerned about this matter, as our town is planning to erect an incinerator within 1500 feet of a populated area, and since we have read many articles regarding this subject we decided that "Kettering Institute" would provide us with much more information than newspaper clippings.

We would appreciate an early reply, and for your convenience, we enclose a stamped self addressed envelope. Thanking you for your courtesy and attention in this matter, we are

Very truly yours,

(Mrs) *Claire L. Ribbe*
