

WAR DEPARTMENT
Services of Supply
OFFICE OF THE SURGEON GENERAL
WASHINGTON

August 27, 1942

Dr. Robert Kehoe, ✓
Kettering Laboratory of Applied Physiology,
University of Cincinnati,
Cincinnati, Ohio.

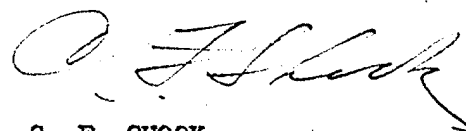

My dear Dr. Kehoe:

This office has been informed by Mr. Roy S. Koch of the Health Supplies Branch, War Production Board, that Dr. Karl Bambach of your organization has been doing considerable research work in the use of tin lined lead tubes for packaging of medicinals. This office is desirous of securing up-to-the-minute information upon such packaging and would appreciate any information which you may desire to submit.

The Medical Department of the Army has hesitated to specify tin lined lead tubes for ointments due to the possible danger of contamination and subsequent lead poisoning.

Your cooperation and assistance will be appreciated.

Very truly yours,

C. F. SHOOK,
Colonel, Medical Corps.
