program in which you are supplementing this report with further experiments based upon inhalation by animals.

If you have no objections to this procedure, would you please let us know. And if you have any further comments or suggestions, we will be glad to receive them.

I believe the next document is the response by Dr. Gardner. This is OCF Number 594. It is dated January 17, 1941, Your Honor.

THE COURT: It will be admitted into evidence.

(Whereupon, Plaintiffs' Exhibit Number 594 was received into evidence.)

MR. SMITH: Signed by Dr. Gardner, director of Saranac Laboratory, to Mr. Staelin.

I have no objection whatsoever in your mentioning the work which we are doing to the members of the Industrial Commission of Ohio when they inspect your Newark plant.

Incidentally, you may now add that animals
