Subject: AGC Chemicals Europe - Signatory to European PFAS Responsible Manufacturing Programme
Attachments: FPG Responsible Manufacturing Statement.pdf

All,

As you will know, AGC has committed to further reducing PFAS emissions from our fluoropolymer manufacturing processes, and we have been working with the wider industry to establish an industry wide agreement on non-polymeric PFAS emissions.

We are pleased to announce that AGC Chemicals Europe, Ltd. as a member of the Fluoropolymer Products Group (FPG) has been directly involved in the creation of, and are signatories to, **the industry Manufacturing Programme for European Manufacturing sites**. This is a voluntary commitment aimed at reducing PFAS emissions, and it sets specific targets for all signatories to reach by the end of next year, and the end of 2030.

The programme is aligned with existing business objectives of AGC Chemicals Europe, Ltd. The full document is attached.

Please let us know if you have any additional questions.

Regards
