August 26, 1975

Mr. Milton Freifeld
Manufacturing Chemists Association
1825 Connecticut Avenue, N.W.
Washington, D. C. 20009

Dear Milt:

Confirming our telephone conversation of August 14, the data on Uniroyal's Vinyl Chloride and PVC capacities were reversed on the sheet which Dr. McCleary supplied on August 12. It should have read:

300 M pounds/year vinyl chloride monomer - Monochem - Shared with Borden
120 M pounds/year polyvinyl chloride

Very truly yours,

W. D. Harris, Ph.D.
Corporate Industrial Toxicologist

RECEIVED

AUG 11 1975

MEDICAL
DEPARTMENT

My company's most recently published capacity is:

120 M pounds/year vinyl chloride monomer

300 M pounds/year polyvinyl chloride - Monochem - Shared with
Borden

Reference:

SRI Lists 140 M which is incorrect.

SRI - Directory of Chemical Producers

OPD (Now "Chemical Marketing Reporter") profiles (date)

Other, as follows:

URL 17413

Set 144M VC from Monochem
