Subject: Vinyl Chloride Safety Association
Proposed Meeting Survey of February 20, 1975

Dear Bob:

With today being the deadline for the subject survey, information received current with March 10, 1975 mail is as follows:

1. With 42 member companies in the VCSA, 30 or 71% have responded to the survey.
2. Of the 30 responses, 12 or 40% indicated preference for a one day meeting devoted to OSHA and EPA in mid-April, 1975. Of the 12, 6 preferred a meeting in the "south". Other locations were split, 3 and 3.
3. Of the responses, 18 or 60% indicated preference for a two day meeting in mid-May devoted to OSHA, EPA, and Safety Subjects. Of the 18 selecting this choice, 10 indicated preference for a meeting in the "east" with "mid-west" as second best.

Typical of such a survey, we have gotten a mixture of preferences. If majority preference is the rule, I would conclude that a two day meeting be held in the east; however, it is well to point out that included in the responses are six for off-shore members who naturally would vote for a two day meeting with an eastern location to reduce travel.

After you have contacted the other Officers, please advise me so that I can release advance notification of the meeting. I have forwarded a copy of this information to the Officers.

Very truly yours,

W. M. Iliff
Secretary
Vinyl Chloride Safety Association
