Subject: Webinar: Automating FOIA and Section 508

[View in browser](#)

Is it possible to automate accessibility in PDF documents? Auto-tagging and Accessibility Checkers in PDF editors can be applied manually, but how can this work on mass quantity of documents? Learn how automation with Foxit PDF Compressor converts, OCR and auto-tags batches of files (MS Word docs, emails, scanned documents, plain PDFs), cutting down the amount of time spent on the compliance basics. Then the new release of Foxit PhantomPDF 9.0 can be used to verify and ensure the content makes sense for assistive technology.

Talk to our experts, Carsten Heiermann, CEO of Foxit Europe and Dan Morris, Sr. Solutions Architect, who will walk you through the process, making accessibility implementation quick and easy.

Webinar date and time:

Day: Thursday, 16th November

Time: 10am Pacific time (1pm Eastern time)

Meet Your Presenters:

Carsten Heiermann
CEO of Foxit Europe

Dan Morris
Senior Solutions Architect
Foxit Software

DeeDee Kato
Senior Director of Marketing
