Subject: Scribbles from Applegate

Dave, I've got a copy of Dave Applegate's scribbled notes and from that I've made a best guess as to what Bernhardt wants. Applegate should be sending something out later today but for now here's what I can make out:

(b) (5)

Bernhardt laid out several options (b) (5)

(b) (5)

I think that's about it for now. If you could take a stab at anything you like, I can finish it off or address things you can't get around to or don't have time for. It would be good if we could get something tomorrow. Thanks...

Walter

Just got into hotel in Dallas and have access to email (yippee). Have a couple hours before I

have an obligation, so will work on this now and send soon. However, my phone is ringing off hook from media re. Murray story, so my have som interruptions.

Thanks. I just started a document to capture all that; haven't gotten far beyond listing the questions and beginning an answer to Question 1 (see attached, start on Page 3).

Re: Murray, please refer all media inquiries to Comms (Hannah Hamilton) at x4356.
