Mr. Shepherd,

"Silicosis and Asbestosis"
by various authors. Edited
by A.J. Lanza, M.D.

I thank you for your letter of the 2nd instant and for the copy letters which you enclose. I, personally, have not come across this book but I have ordered a copy. I think it advisable to have one here.

I quite agree with the comments which are made that this subject should not be lost sight of in these times; as a matter of fact, we ourselves are not relaxing in any way in our fight against this serious trouble. The fact that we have insisted on the wearing of respirators by workpeople on certain jobs has, very frequently, been the cause of their throwing the job up. We are, however, still insisting that the respirator be worn.

F.Bussy.
