Terrific. Thanks. Robin, please let me know what might work best on your end. At this point, our schedule remains fairly flexible.

Best,

Pete

Yes, that sounds great. I am copying in Robin, who can help get this set up.

Samantha – As a follow-up to the Administrator’s recent roundtable discussion in OKC, any chance you might be available to meet with Brad Shamla (our head of liquids pipeline operations in the U.S.) next week -- May 9 -- when he’s in DC?

I know your schedule is quite full but hoping you may have a window or two that works.

Best,

Pete

Thanks Samantha for the quick response. We have some thoughts we can share but it would be great to connect briefly over the phone as well. Next week would certainly work on our end if there's a window that would work for you.

Best,

Pete

Thank you Pete. Is there any way to submit comments and suggestions via email? I would appreciate that, my schedule is very hectic this week. If not, I can try and jump on a call next week.

Subject: Pipeline Permitting Opportunities

Samantha – I'm following up from a roundtable discussion our head of U.S. liquids pipelines (Brad Shamlu) participated in last week in Oklahoma City with the Administrator. As I understand it, one take-away from that discussion was to circle back with the agency to share some background on pipeline operations and project development, along with some thoughts on how to enhance the predictability and credibility of the permitting process going forward.

We're eager to share our perspective in a way that's most useful to you and the Administrator. I'm wondering if you might have a few minutes for a call this week to discuss further?

Best,

Pete
